**WHEREAS**, on January 30, 2020, the World Health Organization designated the novel coronavirus, COVID-19, outbreak as a Public Health Emergency of International Concern; and

**WHEREAS**, the spread of COVID-19 within New Jersey constitutes an imminent public health hazard that threatens and presently endangers the health, safety and welfare of the residents of all municipalities and counties within the State of New Jersey; and

**WHEREAS**, the Governor of the State of New Jersey has declared a State of Emergency within the New Jersey and the President of the United States has declared a National Emergency as a result of the COVID-19 pandemic; and

**WHEREAS**, in response to the health emergency posed by COVID-19, I issued Executive Order No. 2020-01 on March 10, 2020, declaring a State of Emergency in Bergen County due to the COVID-19 pandemic; and

**WHEREAS**, on March 21, 2020, Governor Philip D. Murphy issued Executive Order No. 107 requiring New Jersey residents to remain home or at their place of residence subject to limited exceptions, cancelling social gatherings, and limiting all restaurants and other dining establishments to offering only food delivery and/or take-out services; and

**WHEREAS**, Executive Order No. 107 instituted clear parameters on essential retail businesses that are permitted to operate and required that all businesses or non-profits utilize telework or work-from-home arrangements wherever practicable; and

**WHEREAS**, under Executive Order No. 107, the Governor ordered that all recreational and entertainment businesses are closed to the public, all public, private, and parochial preschool program premises, and elementary and secondary schools, including charter and renaissance schools, are closed to the public, and all institutions of higher education shall continue to cease in-person education; and

**WHEREAS**, on March 21, 2020, Governor Philip D. Murphy also issued Executive Order No. 108, which prohibited counties or municipalities from imposing any COVID-19 related restrictions that in any way will or might conflict with any of the provisions of Executive Order No. 107; and

**WHEREAS**, the Governor reserved in Executive Order No. 108 to municipalities or counties the ability to impose additional restrictions in municipal or county parks in response to the COVID-19 pandemic; and

**WHEREAS**, I issued Executive Order No. 2020-01D, which closed certain county parks and imposed certain restrictions as to county parks that remained open in an effort to ensure compliance with the guidelines of health professionals and the CDC as to social distancing in order to slow the deadly spread of the COVID-19 throughout Bergen County and protect the health, safety, welfare and lives of the residents of Bergen County, while preserving the ability of individuals to spend time outdoors; and

**WHEREAS**, on March 27, 2020, I issued Executive Order No. 2020-01E, which closed county parks due to reports from local authorities about complications, including but not limited to traffic congestion, parking issues and non-compliance with social distancing guidelines, related to park visitation, thereby placing an unnecessary burden on local law enforcement, the Bergen County Sheriff and other critical resources during a pandemic; and

**WHEREAS**, due to increased public interaction and gatherings at county and State parks throughout the State, Governor Murphy issued Executive Order No. 118 on April 7, 2020, which closed State Parks and Forests, as well as county parks, to the public in order to further social distancing requirements; and

**WHEREAS**, Executive Order No. 133 superseded Executive Order No. 108 to the extent that Executive Order No. 108 had allowed counties to impose additional restrictions at county parks in response to COVID-19; and

**WHEREAS**, after the issuance of Executive Order No. 118, the CDC issued guidance for visiting parks and recreational facilities, recognizing that parks and open spaces provide people a vital way to keep the mind and body healthy; and

**WHEREAS**, the CDC guidance regarding the safe access of parks advises individuals to stay six feet away from other visitors, avoid use of playgrounds, decline participation in organized sports and recreational activities, and visit parks close to home to limit travel distances; and

**WHEREAS**, Executive Order No. 118 balanced the need to respond to the increasing new cases and hospitalizations with the need to provide people with outdoor recreation opportunities for the physical and mental well-being, and the progress in the State’s fight against COVID-19 shifts the balance to allow for such additional outdoor recreation opportunities; and

**WHEREAS**, on April 29, 2020, Governor Murphy issued Executive Order 133, which among other provisions, allows the reopening with set restrictions, of all state parks and forests, no longer classifies golf courses as non-essential recreational businesses and permits the reopening of county parks subject to other stated restrictions within Executive Order 133; and

**WHEREAS**, Executive Order 133, provides that County parks shall open to the public with the exception of those parks closed to the public by county order prior to the effective date of Executive Order No. 118, and that such parks may be reopened by order of the county of jurisdiction; and

**WHEREAS**, Bergen County continues to be the epicenter of COVID-19 cases in the State of New Jersey, which necessitates the implementation of any and all measures geared towards compliance with the guidelines of health professionals and the CDC as to social distancing in order to slow the deadly spread of the COVID-19 throughout Bergen County, and protect the health, safety, welfare and lives of the residents of Bergen County. and

**WHEREAS**, in accordance with Executive Order 133, the County has determined to reopen County parks and golf courses and that additional restrictions regarding county parks are necessary to ensure compliance with the guidelines of health professionals and the CDC as to social distancing in order to slow the deadly spread of the COVID-19 throughout Bergen County, and protect the health, safety, welfare and lives of the residents of Bergen County, while allowing the ability of individuals to spend time outdoors; and

**WHEREAS**, the County will continue to monitor and assess the pandemic and take such future action in conjunction with the State as may be appropriate to protect the health, safety, welfare and lives of the residents of Bergen County.
