About the Bergen County Division of Senior Services

The Bergen County Division of Senior Services was established in 1966 under Federal Legislation of the Older Americans Act. The Division of Senior Services is the primary planning, coordinating, and funding agency for senior programs and services, promoting the well-being, health, and independence of Bergen County's older adults. The Division targets especially those vulnerable and in greatest social and economic need.

The Division also provides support to various community-based organizations that promote the well-being and independence of Bergen County's 200,000+ older adults.

As the lead agency for the Bergen County's Aging and Disability Resource Connection (ADRC), the Division helps older adults, individuals with disabilities over the age of 18, and their caregivers, access the complex, long-term care, community-based, health and human services.

About the Older Americans Act (from USAging)

The Older Americans Act (OAA) was passed in 1965 as part of President Johnson's "Great Society" initiative with the goal of supporting older Americans to live at home and in the community with dignity and independence for as long as possible.

For five decades, the OAA has been the foundation upon which the federal, state, and local organizational infrastructure has developed, planned and delivered home and community-based services and supports to older adults and their caregivers. This infrastructure is defined in the OAA as a national Aging Network that currently includes 56 state and territorial units on aging, more than 600 Area Agencies on Aging (AAAs), upwards of 260 Title VI Native American Aging Programs, and more than 20,000 community service providers.

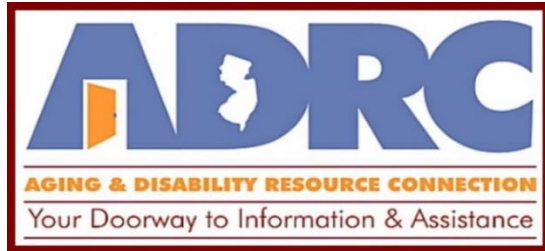

The OAA currently supports a wide array of programs and services, including information and referral, congregate and home-delivered meals, health and wellness programs, in-home care, transportation, elder abuse prevention, caregiver support and adult day care.

Bergen County Division of Senior Services supports and promotes diverse and inclusive communities, and does not discriminate based on age, color, creed, gender, gender identity, mental or physical disability, national origin, political affiliation, race, or sexual orientation in its provision of services or employment practices.

Bergen County Division of Senior Services maintains policies including the following: Non-Discrimination Policy, Termination Policy, Wait List Policy, Grievance Policy and Procedures, Donation Policy, and Privacy Policy. Copies of the policies are available by calling 201-336-7400 or by email at seniors@co.bergen.nj.us.

Services funded under the Bergen County Division of Senior Services Area Plan Contract (APC) are provided free of charge, but donations are accepted. Services will not be denied if a donation is not provided. Donations are used to expand services, programming, and outreach throughout Bergen County.

What is an ADRC?

The Aging and Disability Resource Connection (ADRC) serves as a visible and trusted source of information on aging services for persons of all incomes.

ADRC professional staff assists seniors, adults, and their caregivers in finding benefits and services they need. The ADRC goal is to improve the experience of consumers and their families when seeking access to information, support and services.

Whether you contact us by phone, in person, or online, you will be provided with:

- objective information on publicly and privately funded services
- screening to determine level of service needs
- counseling and assistance
- assistance with eligibility processes and applications and/or
- full care needs assessment when appropriate

The ADRC initiative is part of a nationwide effort to empower people to make informed decisions about their long-term services and supports and to help people more easily access services.

Short/Long-Term Care Facilities

Adult Day Care Programs

The ever-increasing number of people who live to advanced years and whose functional levels are impaired has created a need for a broad range of community-based services to assist those older persons, younger disabled adults, and their families as caregivers. An adult day care program provides multiple health and social services in a congregates setting, enhancing the daily lives of the program's participants and enabling their continued involvement in the community. These facilities provide a segment of time during the day or evening for the family/caregivers to engage in activities suitable to their personal needs. Transportation may be available.

Social Adult Day Care emphasizes social and recreational activities in a group setting, with some health monitoring. Clients attending Social Adult Day Care usually do not need medical attention during the day but may need supervision for safety and activities of daily living. To find a social adult day care program in your area, call the Bergen County Senior HelpLine at 201-336-7400.

Hospice Care

Hospice care is available for people whose physician has determined that they have an incurable condition and have a life expectancy of six months or less. Hospice services may be chosen by you or your caregiver, or recommended by your physician. Hospice care can be provided in the home or at an extended care facility, such as a nursing home or assisted living facility. There are also free-standing hospice centers, sometimes called residential hospice centers. Some families prefer this kind of setting because it feels more like home and less like an institution. Medicare, Medicaid, and most private insurance plans cover the costs of hospice care, or you may pay out-of-pocket. For a list of hospice providers in Bergen County, call the Senior HelpLine at 201-336-7400.

Durable Medical Equipment (DME) prescribed must meet Medicare criteria. If the supplier accepts assignment, the cost is 20% of the Medicare-Approved amount, and part B deductible applies (however, some restrictions may apply). If you live in or visit certain areas, you may be affected by Medicare's Competitive Bidding Program. Contract suppliers in the bidding areas cannot charge more than the 20% coinsurance and any unmet yearly deductible for any equipment or supplies.

Affordable Housing in Bergen County

Bergen County is home to many subsidized, or “affordable,” housing developments and programs. However, due to very high demand for affordable housing, many developments have years-long waiting lists or are not accepting applications for their waiting lists. The Bergen County Division of Senior Services ADRC maintains the “Navigator Notes” list of properties that are currently accepting applications for their waiting lists.

Housing Navigator Notes

Each low-income housing program has slightly different requirements and they all vary as to which has open wait lists and which do not. With qualifications for age, income and more, it can be tricky to navigate the options and figure out which one is best for you.

The most up-to date listing of apartments with open wait lists is the Bergen County Division of Senior Services' **Navigator Notes**. This electronic document has clickable links to view information about the properties and eligibility guidelines, learn about minimum and maximum income requirements, and where you can view, download and/or fill out applications online and more. It is updated every month and features any new properties or ones with application deadlines in its “Hot Topics” section. Call 201-336-7400 or email seniors@co.bergen.nj.us to sign up for the **Housing Navigator Notes**.
