A disciplinary system is included and will be **strictly enforced** during training. Serious violations will not be tolerated and may be cause for immediate dismissal. Any recurring violations will be reported to the sending department. If violations continue, the recruit will be dismissed / withdrawn from the Academy.

During range exercises, each student must also be equipped with a functional bullet-resistant vest, ballistic resistant eye wear, ear protection, duty type flashlight. It is recommended that each trainee fire at least 300 rounds with their respective firearms personnel prior to range week. Any agency that issues/authorizes a side-handled baton, (PR-24,) will please notify the Police Academy in advance if this training is necessary. Once qualified, recruits should wear the agency issued/authorized baton, at the Academy.

All recruits will be certified in the Police Training Commission's required First Responder functional area. Sending Agencies interested in certifying their trainees as EMT's will have the option to continue their training after graduation, at the Bergen County EMS Academy in Paramus on an "In-Service Training" basis. In the event any illegal substance is detected in the recruit's urine, he or she will be dismissed from the Academy. In addition, the trainee shall be terminated from employment and reported to the Central Drug Registry by his or her sending agency. The trainee will be barred from future law enforcement employment in New Jersey. Please be sure to inform your recruits of this policy prior to his/her attendance.

NOTE: The New Jersey State Medical Examiner's Office charges a fee of **\$45.00 per urine test**. A minimum of one test will be administered during training. Each sending Agency is required to cover the cost for these tests. Your department will be billed upon completion of the Basic Course for Police Officers. Email results to daffinito@patersonpd.com & recruittraining@bcpo.net. Please write the recruit's name on the form.

All recruits must possess a valid New Jersey Driver's License for the duration of the training. The operation of motor vehicles is required for training purposes.

The Police Training Commission mandates that trainees must satisfactorily complete the practical portion of the Emergency Vehicle Operations Course (EVOC). Each department must provide a marked Police Unit with a working siren for a period of three (3) days. The unit is to be in good, safe, working condition and will be inspected on the first day of the Vehicle Operations Course. The vehicle inspection form / checklist must be completed and submitted to the academy (**Item 14**).

Use will be limited to **three (3) trainees per department vehicle**. (Example; if your department has 4 trainees, 2 vehicles will be required.) This is due to the fact that there will be more than one course in operation at a time.

Taser qualification for recruits will be conducted for any agency who desires it.
